

Memorandum

Date: April 21, 2015

To: Honorable Chairman Jean Monestime
and Members, Board of County Commissioners

Agenda Item No. 8(F)(9)

From: Carlos A. Gimenez
Mayor

Subject: Recommendation to Ratify Emergency Award: Cogeneration Units at the Central District Wastewater Treatment Plant

Recommendation

It is recommended that the Board of County Commissioners (Board) ratify the emergency contract award E9812-WS, *Cogeneration Units at the Central District Wastewater Treatment Plant* to Condo Electric Motor Repair Corp. for the purchase of two (2) replacement cogeneration units (i.e., engine generators) utilized by the Water and Sewer Department. The units are used at the County's Central District Wastewater Treatment Plant (Plant) to produce the heat required for the digestion of solids. The heat generated by the units assists in the production of sludge, which is sold as fertilizer, saving the County approximately \$1.5 million per year as waste does not have to be transported to a landfill. In addition to the production of heat, the units provide electrical power applied to the sewage treatment process, which results in a yearly savings of approximately \$850,000.

Various components within the existing units, which were over 26 years old, were close to failure and no longer repairable. To avoid a failure at the Plant, on July 23, 2014, the Water and Sewer Department declared the emergency purchase of two (2) cogeneration units to replace the failing units. The units were purchased through a competitive bidding process among pre-qualified vendors under *Contract No. 7712-1/20*. The total cost of the project was \$3,663,277 (i.e., \$4,048,277 minus an old equipment trade-in credit of \$385,000). In light of the condition of the units and the potential impact that could result from the Plant's failure, it was necessary to proceed with this purchase prior to formal Board approval.

Scope

The impact of this item is countywide in nature.
